

# COMPANY PROFILE

## INTRODUCTION

# About **Us**

We strive to solve the issue of an **under-equipped modern workforce** in facing the collective problem of the contemporary digital era. We help **equip every professional with data science skills**, such as data visualization, regression, data modeling, machine learning, and statistical programming, that will prepare them for today and tomorrow's employment.

Established in 2017, Algoritma **provides data science education** by training individuals, corporates, and provide employment opportunities for our graduates to various industries. We also provide consulting services to maximize value creation through data.

**Our mission is to deliver high quality  
education and help companies build  
long-lasting advantages with**

**DATA**

# Our **vision**

To accelerate data science adoption across the region and provide employment opportunities.

# Supporting the President's **vision**

---

"Indonesia will be World's 4<sup>th</sup> Largest Economy by 2030"

By Office of Assistant to Deputy Cabinet Secretary for State Documents & Translation

*The country has a bright future, however  
it will not be realized if people's skills are  
not improved. We must act now.*

# Indonesia's Crisis of **skilled workers**

**Ranked 62 of 140**

In the Global Skilled Workers  
based on World Economic  
Forum 2018

**133 Million**

Are needed to upskill to secure  
Indonesia's place in the future  
as the 4<sup>th</sup> largest economic  
power globally by 2030

**8 from 10**

Companies in Indonesia have  
difficulty in getting workers with  
the right skills and knowledge

**Limited Access**

To quality technical training  
and trainers in Indonesia

**52% of Indonesia's white-collar workers are underqualified.**

# Train the Trainer Program

First in Indonesia to export data science education abroad

## Train the Trainer Program (3 months)

Our partnership with Ngee Ann Polytechnic from Singapore commenced in April – June for the train the trainers program and we successfully trained 3 trainers who will conduct our courses in Singapore through Ngee Ann Polytechnic (CET program).

### Dr Ricky Chua

Ricky is a senior lecturer in the School of Interdisciplinary Studies at Ngee Ann Polytechnic (NP). He has always been interested in mathematics and numbers and he loves data analysis and machine learning. With 20 years of teaching experience, he sees himself as an “edu-tainer” and is excited to share about data science in this comprehensive bootcamp.

### Andy Oh

Andy is a senior lecturer in the School of Business and Accountancy at NP. He has deep interests in the area of machine learning and continues to expand and deepen his knowledge in the area of data science.

### Charis Tang

Charis is a lecturer in the School of Infocomm Technology at NP and has taught computing math, statistics, and programming. She has bridged these two areas by being trained in data analytics and continues to further her skills in this area.

## CORPORATE

We help corporates to build a Data-Driven Organization through our leadership, culture, and technical training.

80x

Cumulative  
Return on  
Investment

## PUBLIC

We provide comprehensive training to students who are looking to upskill or switch career.

1,500+

Graduates of  
Academy  
Bootcamp

## CURRICULUM

Our curriculum is adapted towards practical real world use case that is relevant to the industries.

4

Universities &  
Corporate  
Universities  
Adopted

TRAINING

## CONSULTING

We help companies build data projects for them in accordance with their business objectives

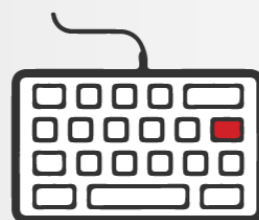

9

Corporate  
Projects  
Completed  
Successfully

## OUTSOURCING

We help companies with talent shortage to immediately hire external help to complete their projects

12

Corporates  
hired for their  
projects

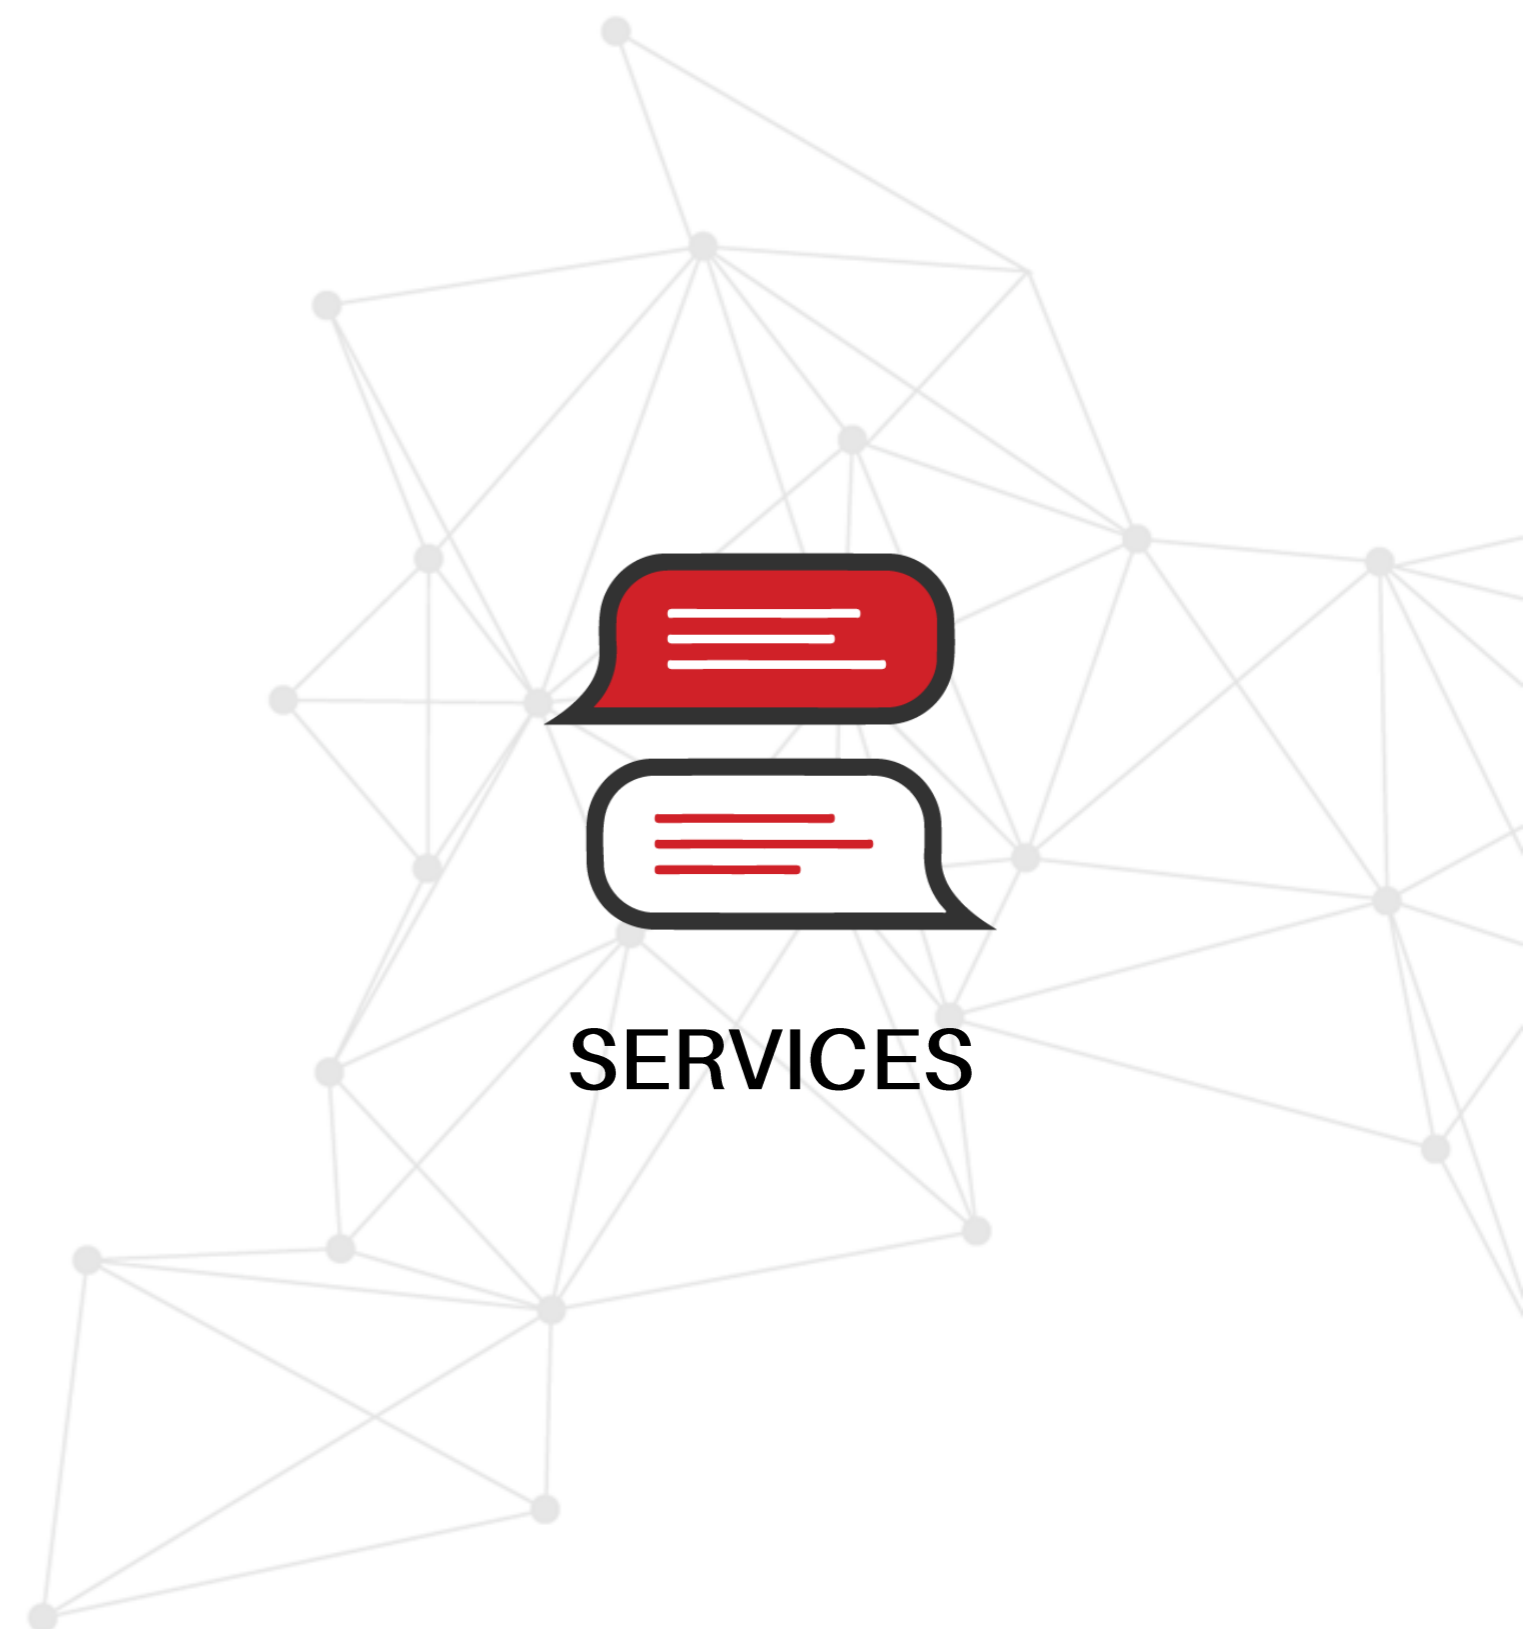

## ASSESSMENT

Our Data Science Maturity Assessment and technical assessment service allows companies to find out the company's areas of needs

3

Corporates  
Assessed

## HACKATHONS

We help companies who are looking to generate useful case studies and recruit talent in massive scale run a national scale hackathon.

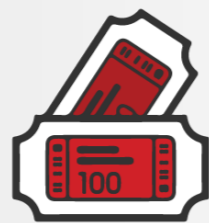

12,000+

Cumulative  
Hackathon  
Submissions

## CAREER FAIR

We regularly have 3-4 Data Career Day to celebrate the graduation of our students and provide employment opportunities and hiring opportunities by our hiring partners.

9,000+

Cumulative  
Event  
Participants

## EVENTS

We regularly run sponsored networking events for our Alumni and Corporates.

300+

# OUR SUCCESS STORIES

# EXTERNAL HACKATHON COMPETITION

- National Scale
- Assessment Partner
- Event Organizer
- Marketing Promotion

**Objective:**  
Conduct competitions to recruit talents.

# SHOPEE NATIONAL DATA SCIENCE CHALLENGE 2020

## Scope of Work

- **Training Workshop**

## Objective:

- Engage with tech community
- Provide an environment for the development new ideas in Data Science
- Equip students and professionals with essential technical skills and expertise to prepare them for Industry 4.0

Saturday, 28 November 2020

The largest online data science competition in Indonesia

Registration closed

Online Workshop

## SOLVING BUSINESS PROBLEM USING DATA MINING APPROACH

by Algoritma Data Science School special for National Data Science Competition 2020 by Shopee

  **NOV 2020**  
18.30-21.30

What you will learn:

- What is Data Mining
- Data Mining Goal
- CRISP-DM Methodology
- Study Case with Implement CRISP-DM Methodology
- Basic Machine Learning

**ARGA ADYATAMA**  
Data Science Instructor at Algoritma

**JOIN NOW !**

# BRI DATA HACKATHON 2020-2021

## Scope of Work

- National Scale
- Assessment Partner
- Event Organizer
- Marketing Promotion

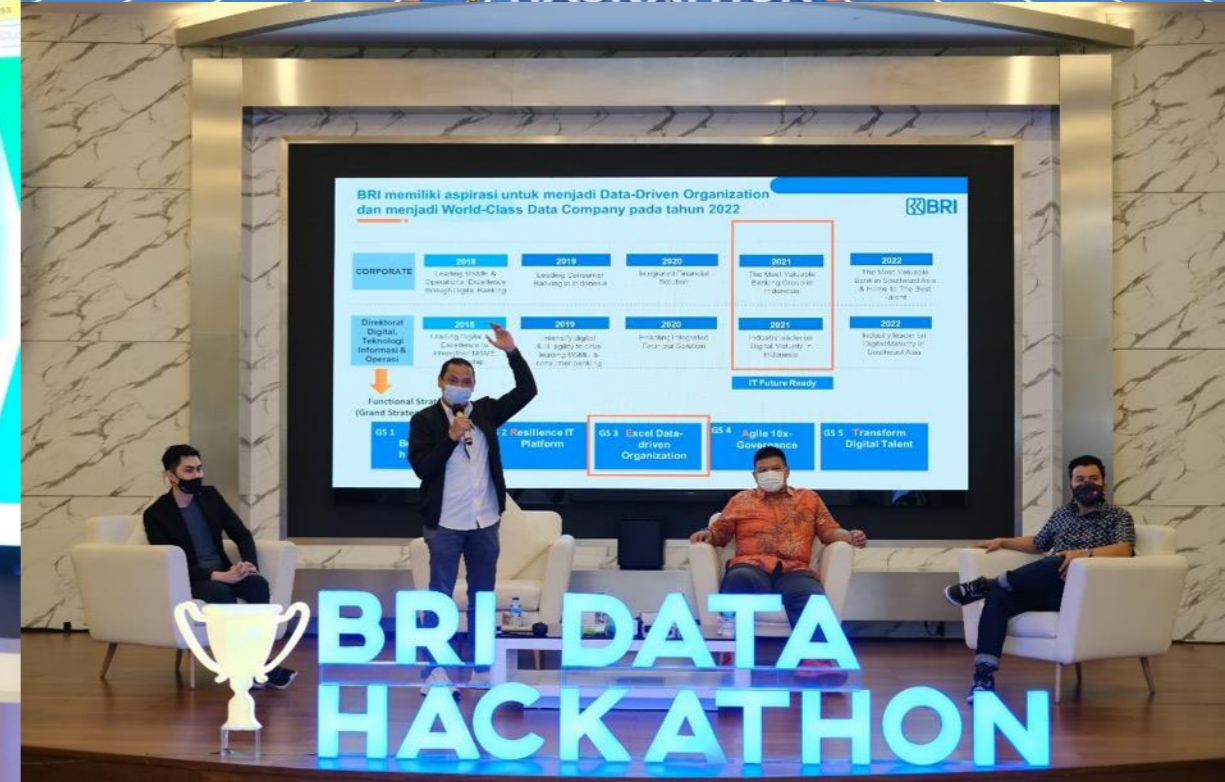

## Objective:

Corporate innovation

Talent recruitment

Data science community engagement

BRI Hackathon Portal

# ALGORITMA COMMUNITY MEETUPS

- 6,000 Members
- 1,000 Alumni
- Free of Charge / Sponsored
- Monthly
- Educational

**Objective:**  
Increase interactions and exchange of ideas  
through meet-ups to foster innovation in data  
and provide opportunities.

**jendela data**

## TIME SERIES ANALYSIS FOR BUSINESS FORECASTING

Wednesday, 27 January 2021  
18.30 - 20.30 WIB

Live via  **zoom**

# OUR SERVICES

The roadmap towards building a  
successful Data Driven Organization

# What we do

We are focused on high quality training, hackathon, and consultancy. We are committed to deliver highest quality of service to our students and clients.

## Solution

### Solution Builder

solve business questions through data

### Managed Services

provide customized ready made application to meet your business objectives with maintenance by us

### Value Seeking

explore available data to find value

### Proof of Value

we solve immediate goals and show immediate impact from prototype

## Training

### Develop Data Driven Culture

drive cross-functional pollination between differing business units and Data Science teams by socializing data science to the entire organization through executive training

### Immediate Result

obtain skills applicable for the project through our in-house custom training

### Internalize Competency

develop long-term data science competency through our Academy

# On-site Training

We offer on-site training in the location of your preference, be it in your office, training centers or other locations for more efficient face to face learning. We also conduct academy data science training in **Algoritma Training Center**.

Regarding of Covid-19 our team is well equipped with an **extensive health protocol** to ensure your safety.

All projects and assignments will be submitted in **Google Classroom**

# ■ Live Interactive **Training**

We offer online learning through **Zoom**, but we are able to accommodate other preferred platforms such as **Webex**, **Microsoft Teams**, and other related platforms. We use all the existing tools in these platforms to ensure **two-way interactive communication** during our classes.

We also use other learning support platforms to ensure effective learning and quizzes, such as **Mentimeter** and our own learning performance management tool, **Pedagogy**

All projects and assignments will be submitted in **Google Classroom**

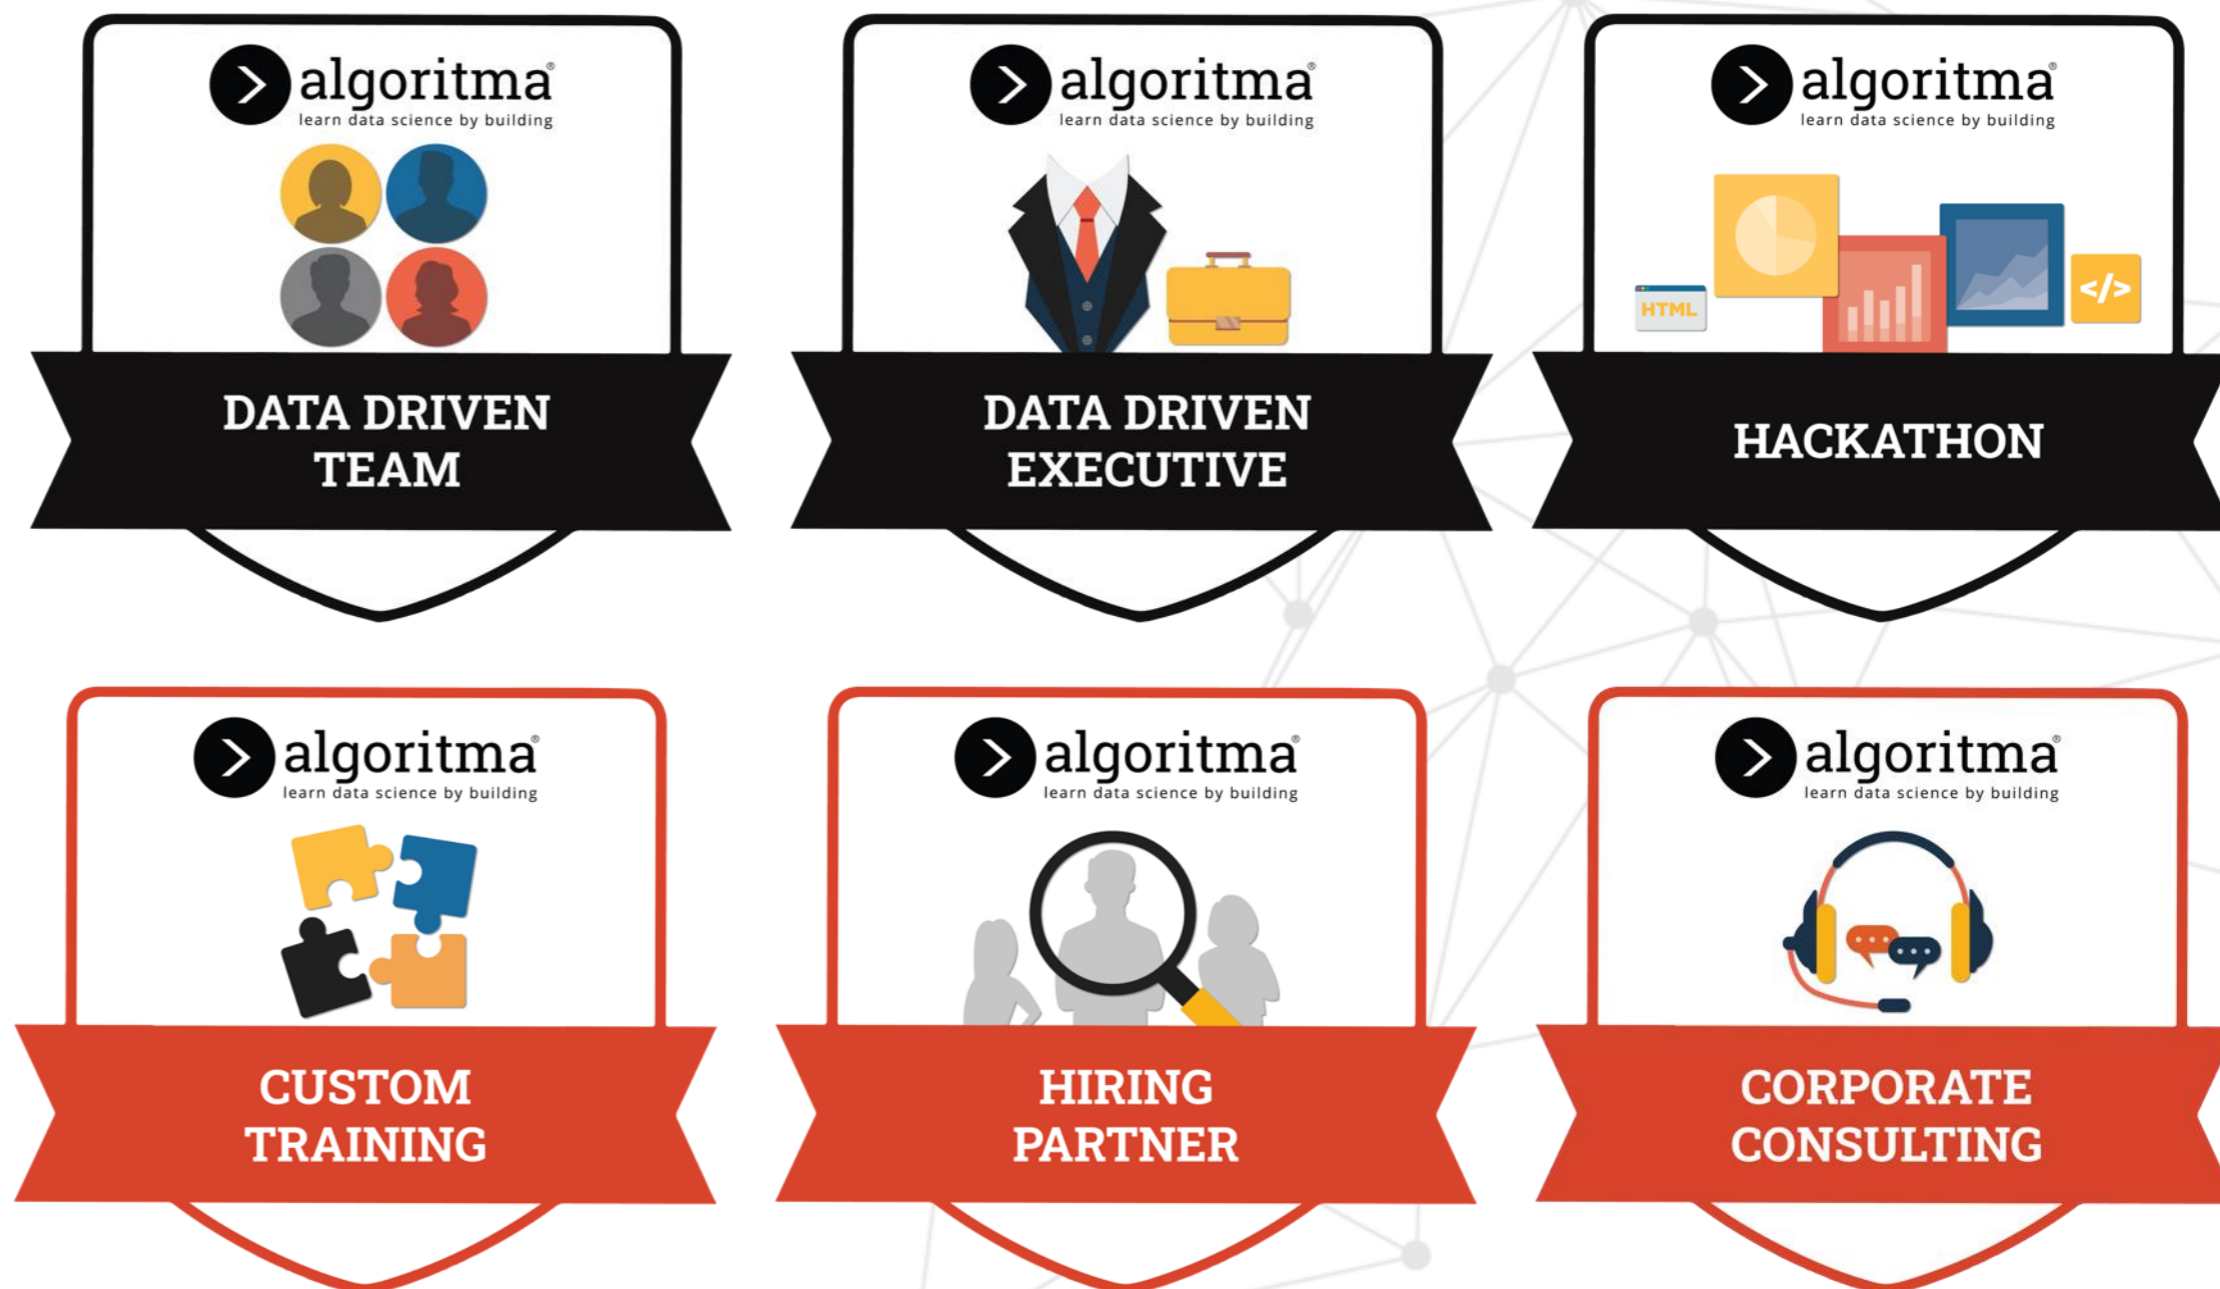

# Our Training - Corporate Programs

## **CORPORATE TRAINING**

Our corporate training offerings range from strategic executive training to technical hands-on programming and implementation programs through real-life data and case studies.

We aim to comprehend our clients' needs and help them deliver results that achieve stellar objectives.

# Data Driven Team

**Duration** : 2 hours  
**Suitable for** : Everyone in the company

A short workshop to **increase awareness** in on the importance of data, **understanding** the uses cases of data, and **identify potential data talents** in the company.

## Objectives

1

Learn how to deal with disruption using data

2

Understand the core meaning of big data & analytics

3

Learn the steps to transform business by taking advantage of data science

4

Be aware of real life data science use case

# Data Driven Executive

**Duration** : 5 Hours  
**Suitable for** : Managers to C-level member

Demonstrate how data science could **improve the company's performance** metrics, **team's decision making**, culture, and **advance the competitive advantage** against competitors with insights from **business** and **data science experts**.

## Objectives

1

Understand the core meaning of big data & analytics

2

Understand how insights could be generated

3

Learn the steps to build data science capabilities

4

Learn how to develop and manage data talent

# Custom Training

A **specifically tailored training** program based on your company's needs to drive your company to its highest potential.

## Asses your challenges

Understand your business challenges by leveraging the data your company possess

## Targeted Solutions

We provide recommendations on conduction or customizing the curriculum and the learning plan accordingly

## Solve the Problems

We guide your team to achieve the objective(s) to solve the challenge by incorporating the project(s) in training and providing your team with post-training support

# Data Hackathon

**National-Scope Data Hackathon** competition to push corporate innovation, recruit leading talents nationwide, and engage the national data science community.

PRE-QUALIFICATION ASSESSMENT SYSTEM	TECHNICAL Q & A	SUBMISSION ASSESSMENT	DEMO DAY	MARKETING CAMPAIGN
<ul style="list-style-type: none"> <li>● Provide web portal for assessment</li> <li>● Provide pre-qualification test</li> <li>● Automatic assessment and real time result</li> <li>● Reporting for assessment test</li> </ul>	<ul style="list-style-type: none"> <li>● Respond every incoming technical queries about datasets &amp; modelling technique</li> <li>● Provide support email for technical inquiries with ticketing system</li> <li>● Support 2 technical online briefing</li> </ul>	<ul style="list-style-type: none"> <li>● Provide technical assessment and criteria for each participant's model submission.</li> <li>● Create report for submission assessment</li> </ul>	<ul style="list-style-type: none"> <li>● Send one adjudicator to evaluate submission technically</li> <li>● Provide data Science expert</li> <li>● Prepare Demo Day execution, press release, and media partner coordination</li> </ul>	<ul style="list-style-type: none"> <li>● Create marketing campaign for Hackathon</li> <li>● Provide content promotion for marketing channel</li> <li>● Create marketing timeline to publish the event</li> <li>● Provide marketing report regarding the process</li> </ul>

# Hiring Partner

Help to provide your company with leading talents that are **a good fit** today and will continue to **evolve with the changing needs and aspirations** of your company.

## Our graduates possess the proficiency:

### Data Visualization Specialization

Creating data products and dynamic dashboards using R programming language (e.g. tidyr, dplyr, string manipulation, ggplot2, R Shiny).

### Machine Learning Specialization

Able to implement hypothesis testing, missingness, imputation & KNN, multiple linear regression, random forests, bagging, boosting, support vector machines, unsupervised learning

## Our current hiring partners:

# Corporate Consulting

We provide a **data-driven consulting solution** through an end to end process to help companies grow and overcome their problems. We provide a diagnostic analysis and business validation to help companies address their issues and eventually deliver the completed project and knowledge transfer to the stakeholders.

**CORPORATE  
CONSULTING**

# Corporate Consulting

Help your company to **transform and move into the AI-powered age**, providing companies with an edge to be **better than the competition**.

# **ACADEMY DATA SCIENCE BOOTCAMP**

# Programs at **Academy Bootcamps**

Our certified curriculum has been built and improved over many iterations and has been adopted across multiple corporations across all industries and academics.

**Certified by R Studio Education**

**Adopted by Internal Corporate Universities**

**Adopted by Academia**

# Data Science Academy

ALGORITMA  
ACADEMY

17 days course to obtain full proficiency in data analysis using Python and SQL

14 days course to excel in processing and visualizing big data using R, with capstone project included

30 days course to excel in predictive analysis and forecasting using R, with capstone project included

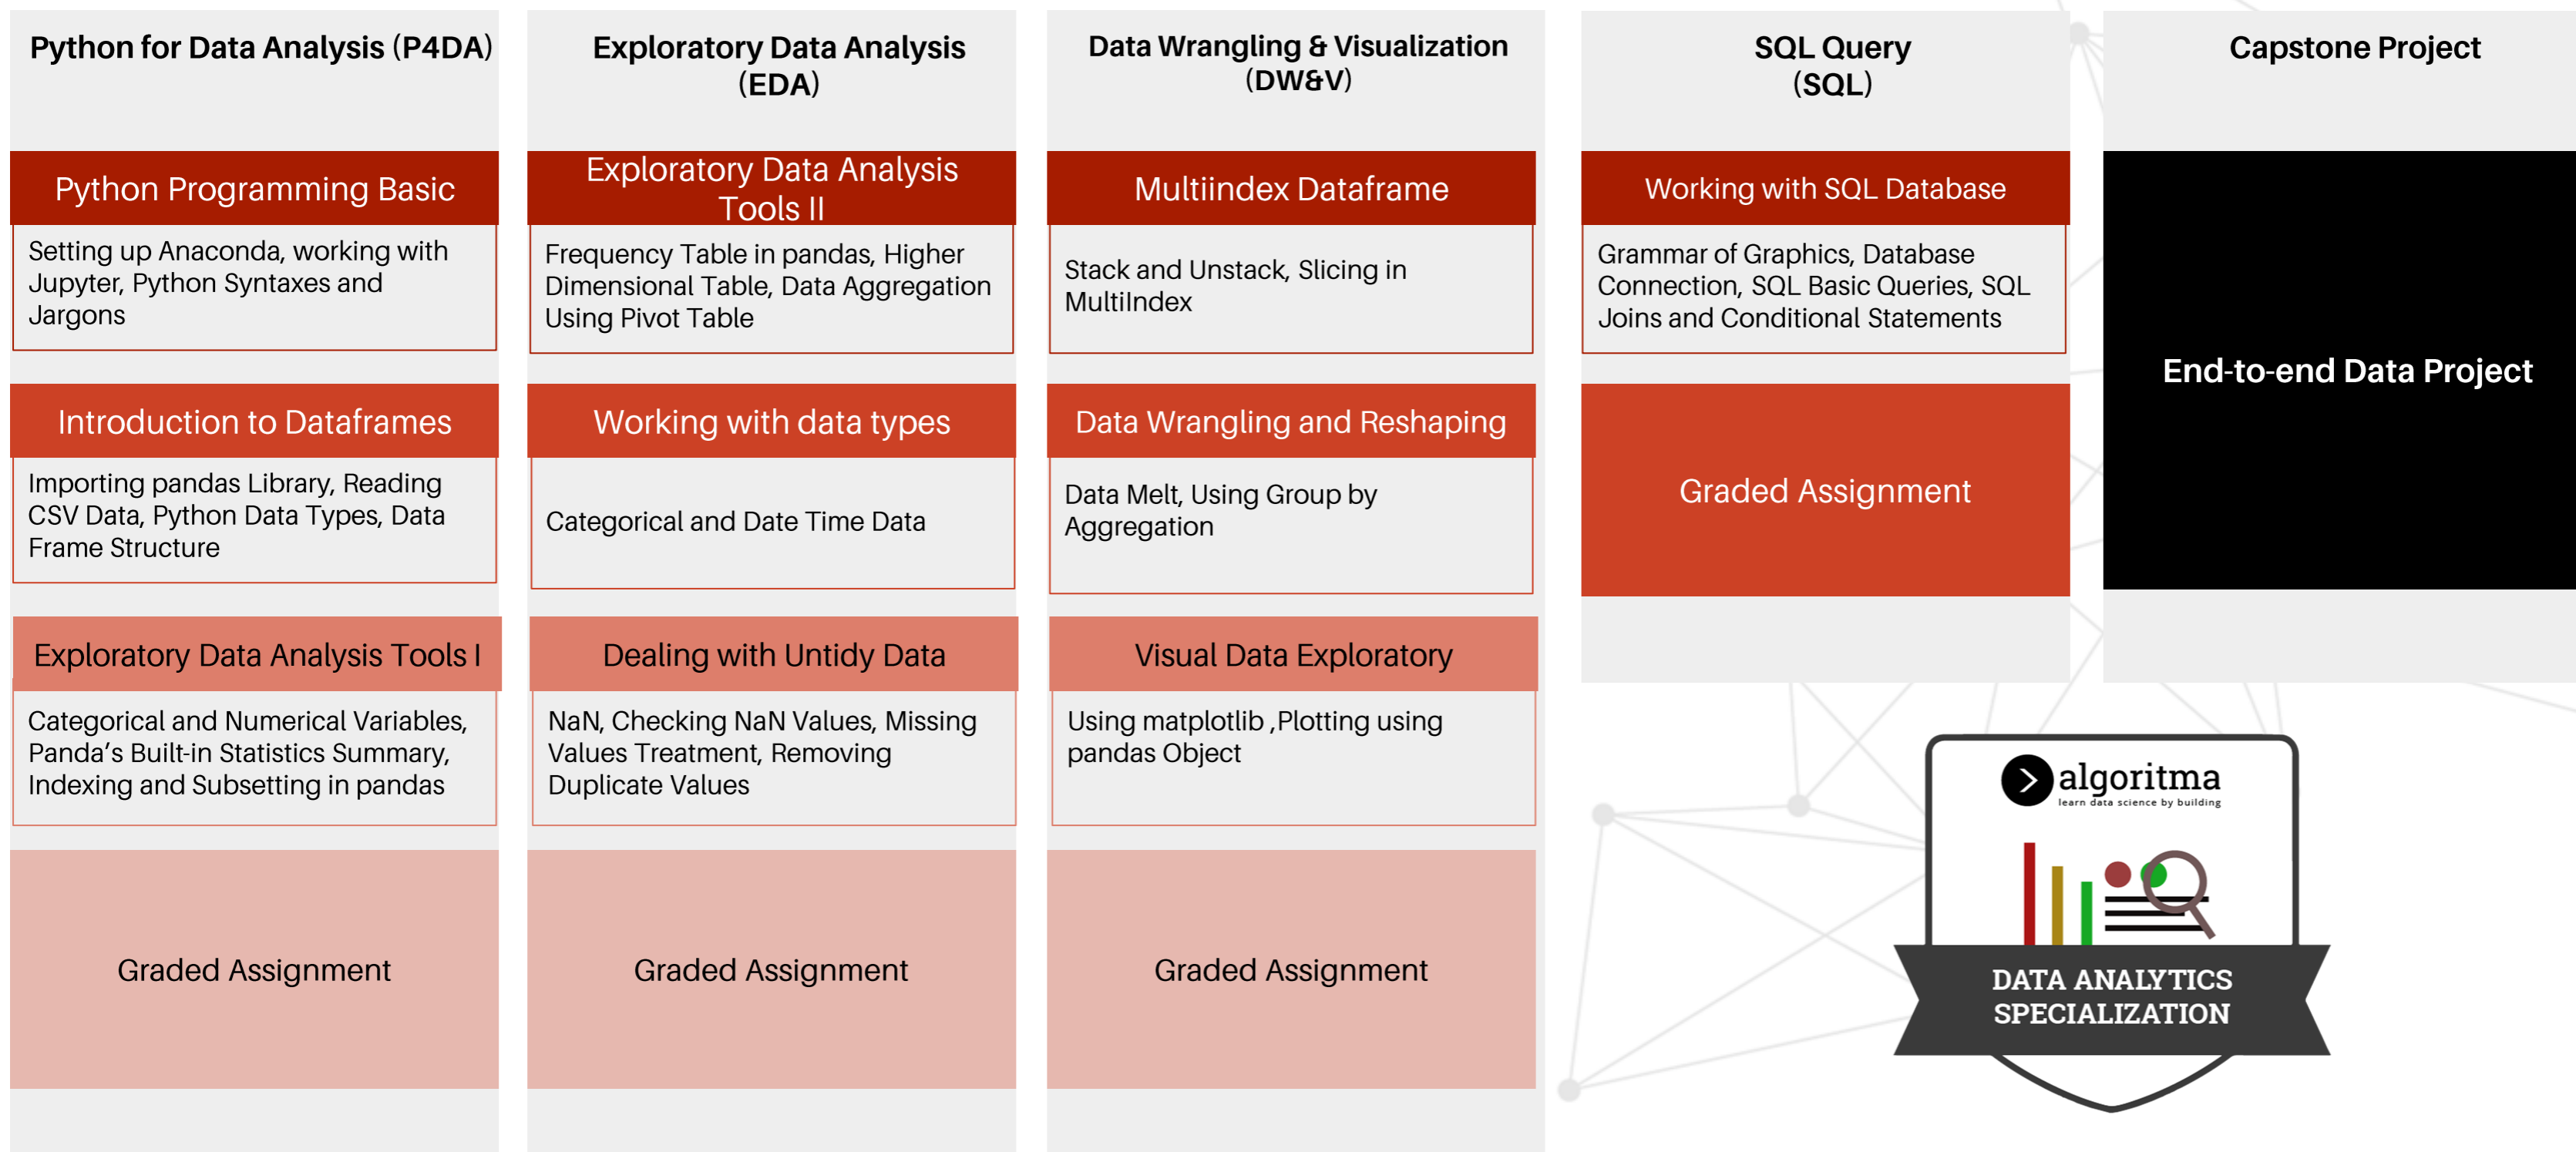

Academy Regular

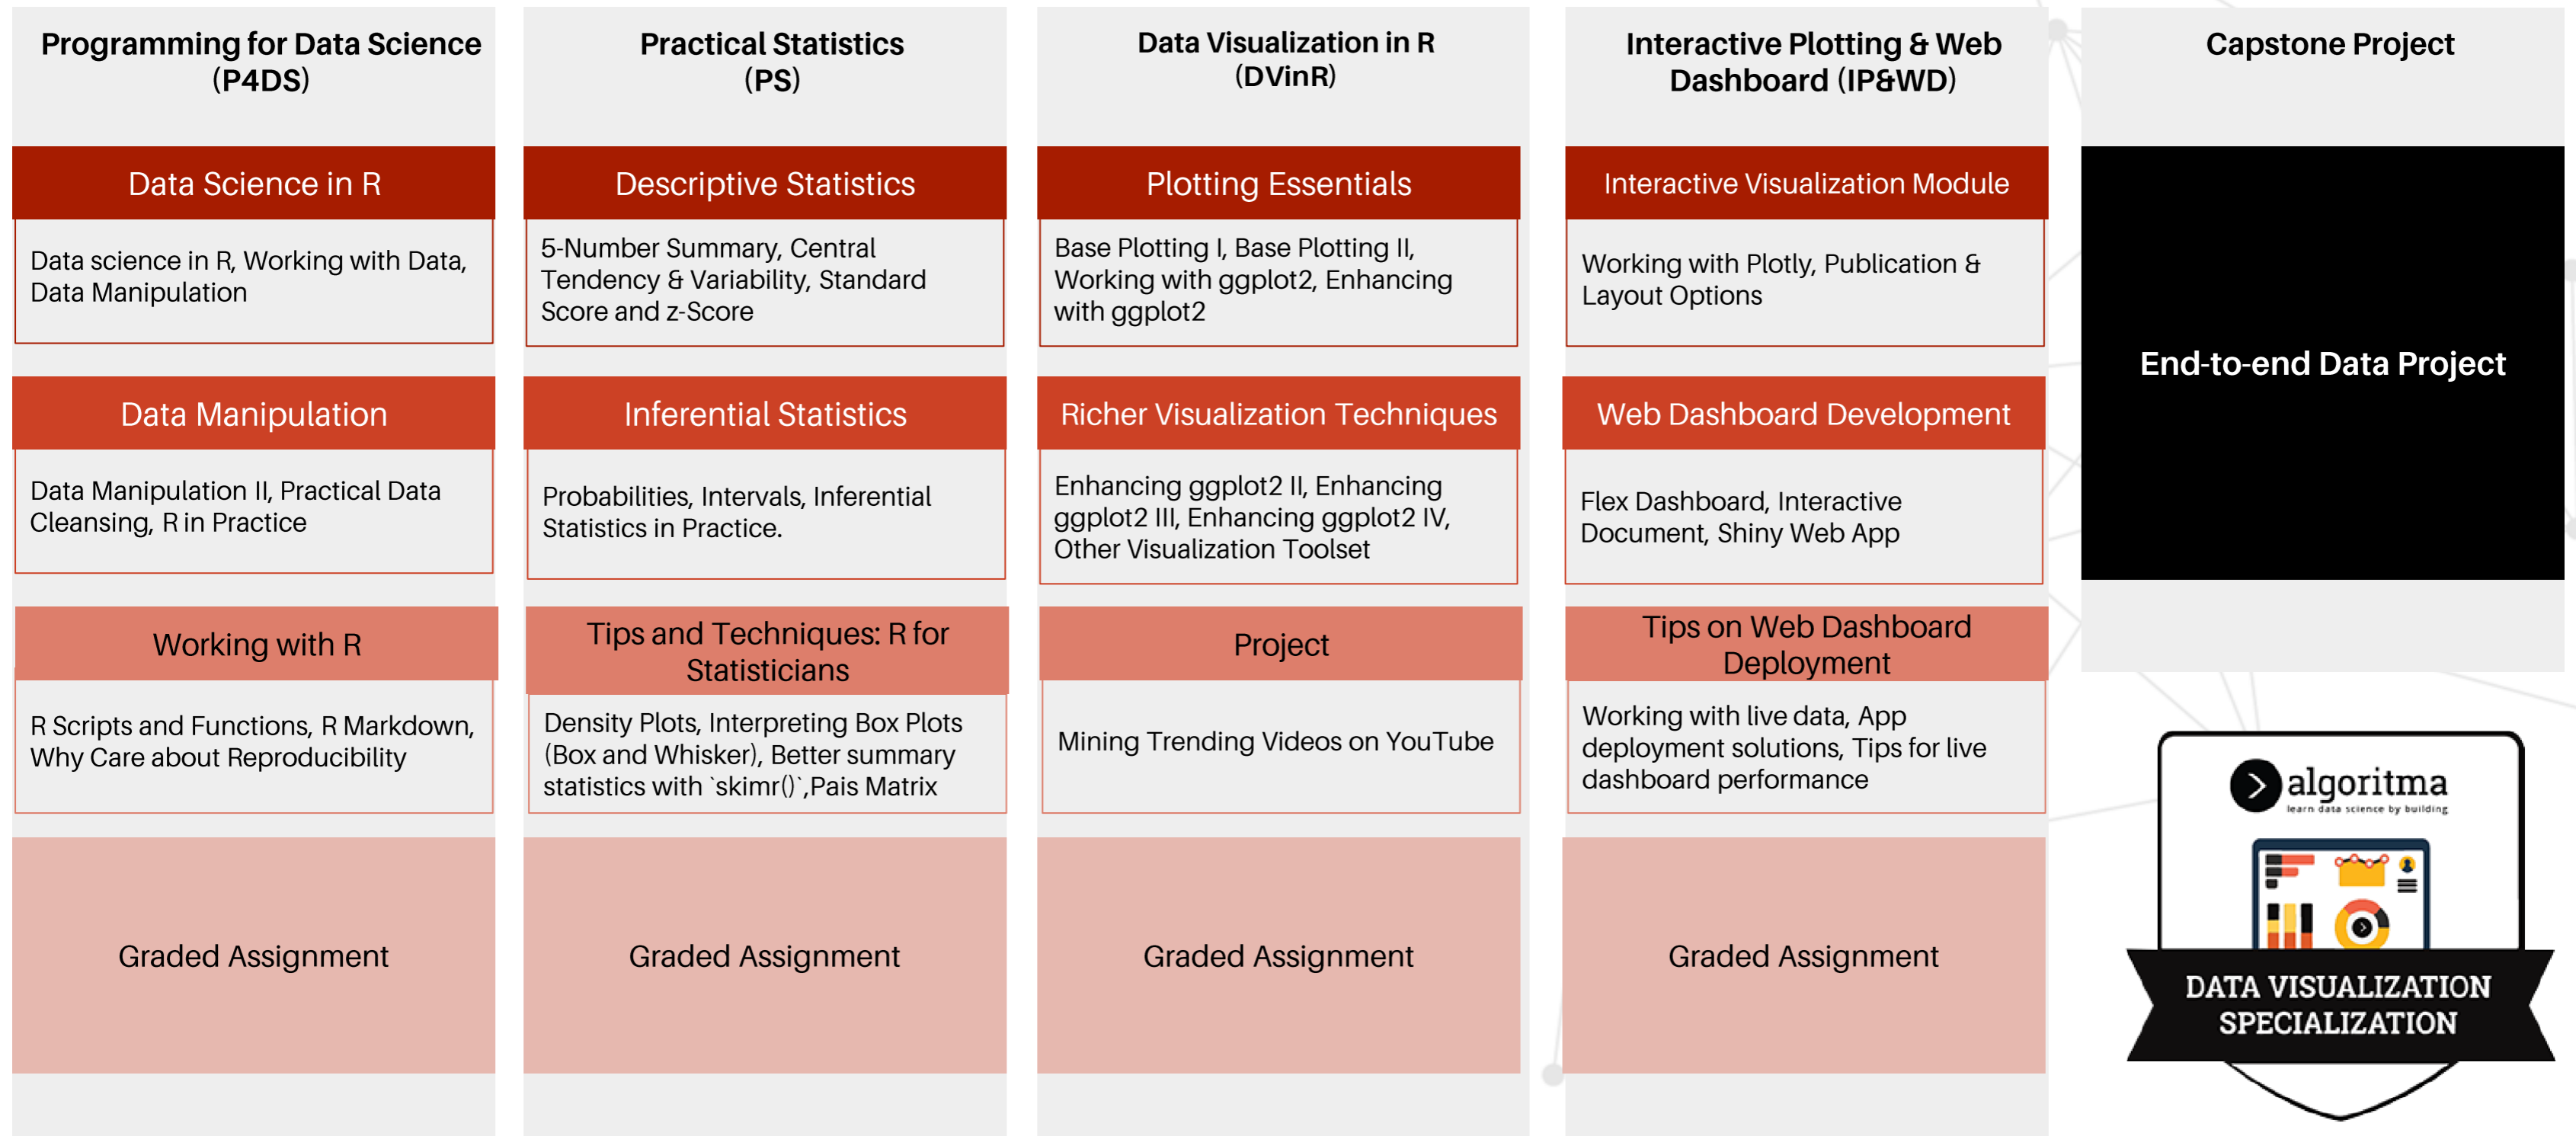

Academy Full Stack

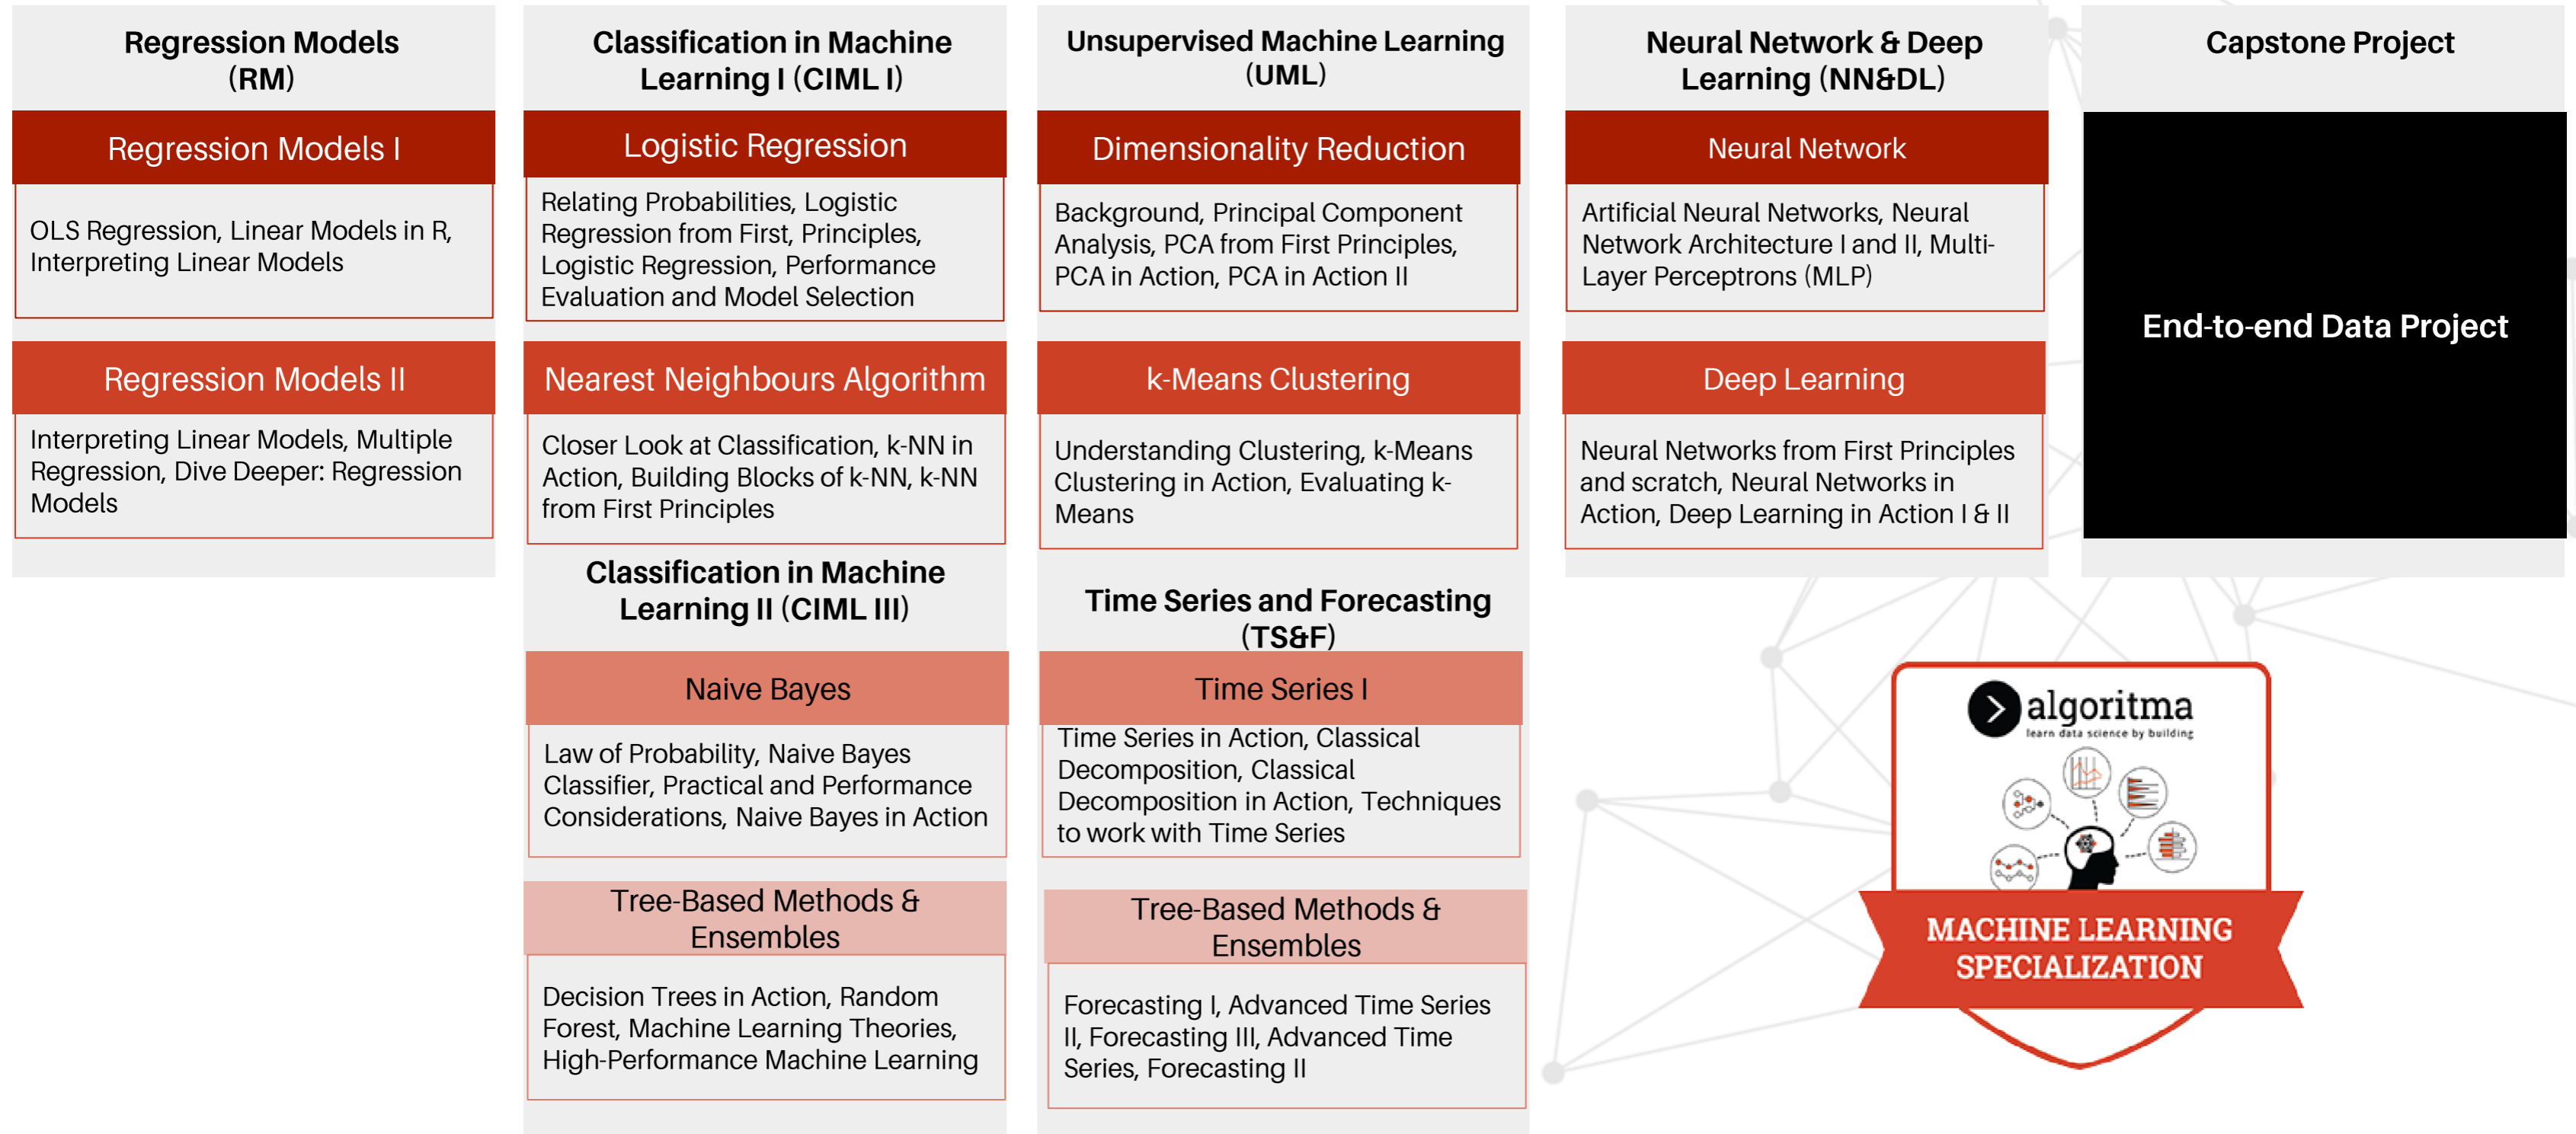

# Data Analytics Specialization

# Data Visualization Specialization

# Machine Learning Specialization

# Our Public Training **Programs**

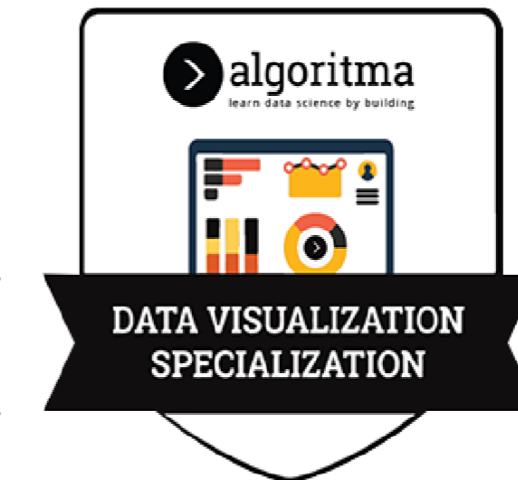

## Data Science Public Workshops

**KICKSTART  
SERIES**

## Public Academy

**ALGORITMA  
ACADEMY**

# Data Science Public **Workshops**

## Kickstart Series

A collection of 3-4 hours introductory seminar for professionals who are curious about what data science is and how it impacts their career and company.

## Data Science Series

A collection of a 2-3 days industry specific workshop for professionals who are looking for applicational and practical data science training that are highly relevant to their industry.

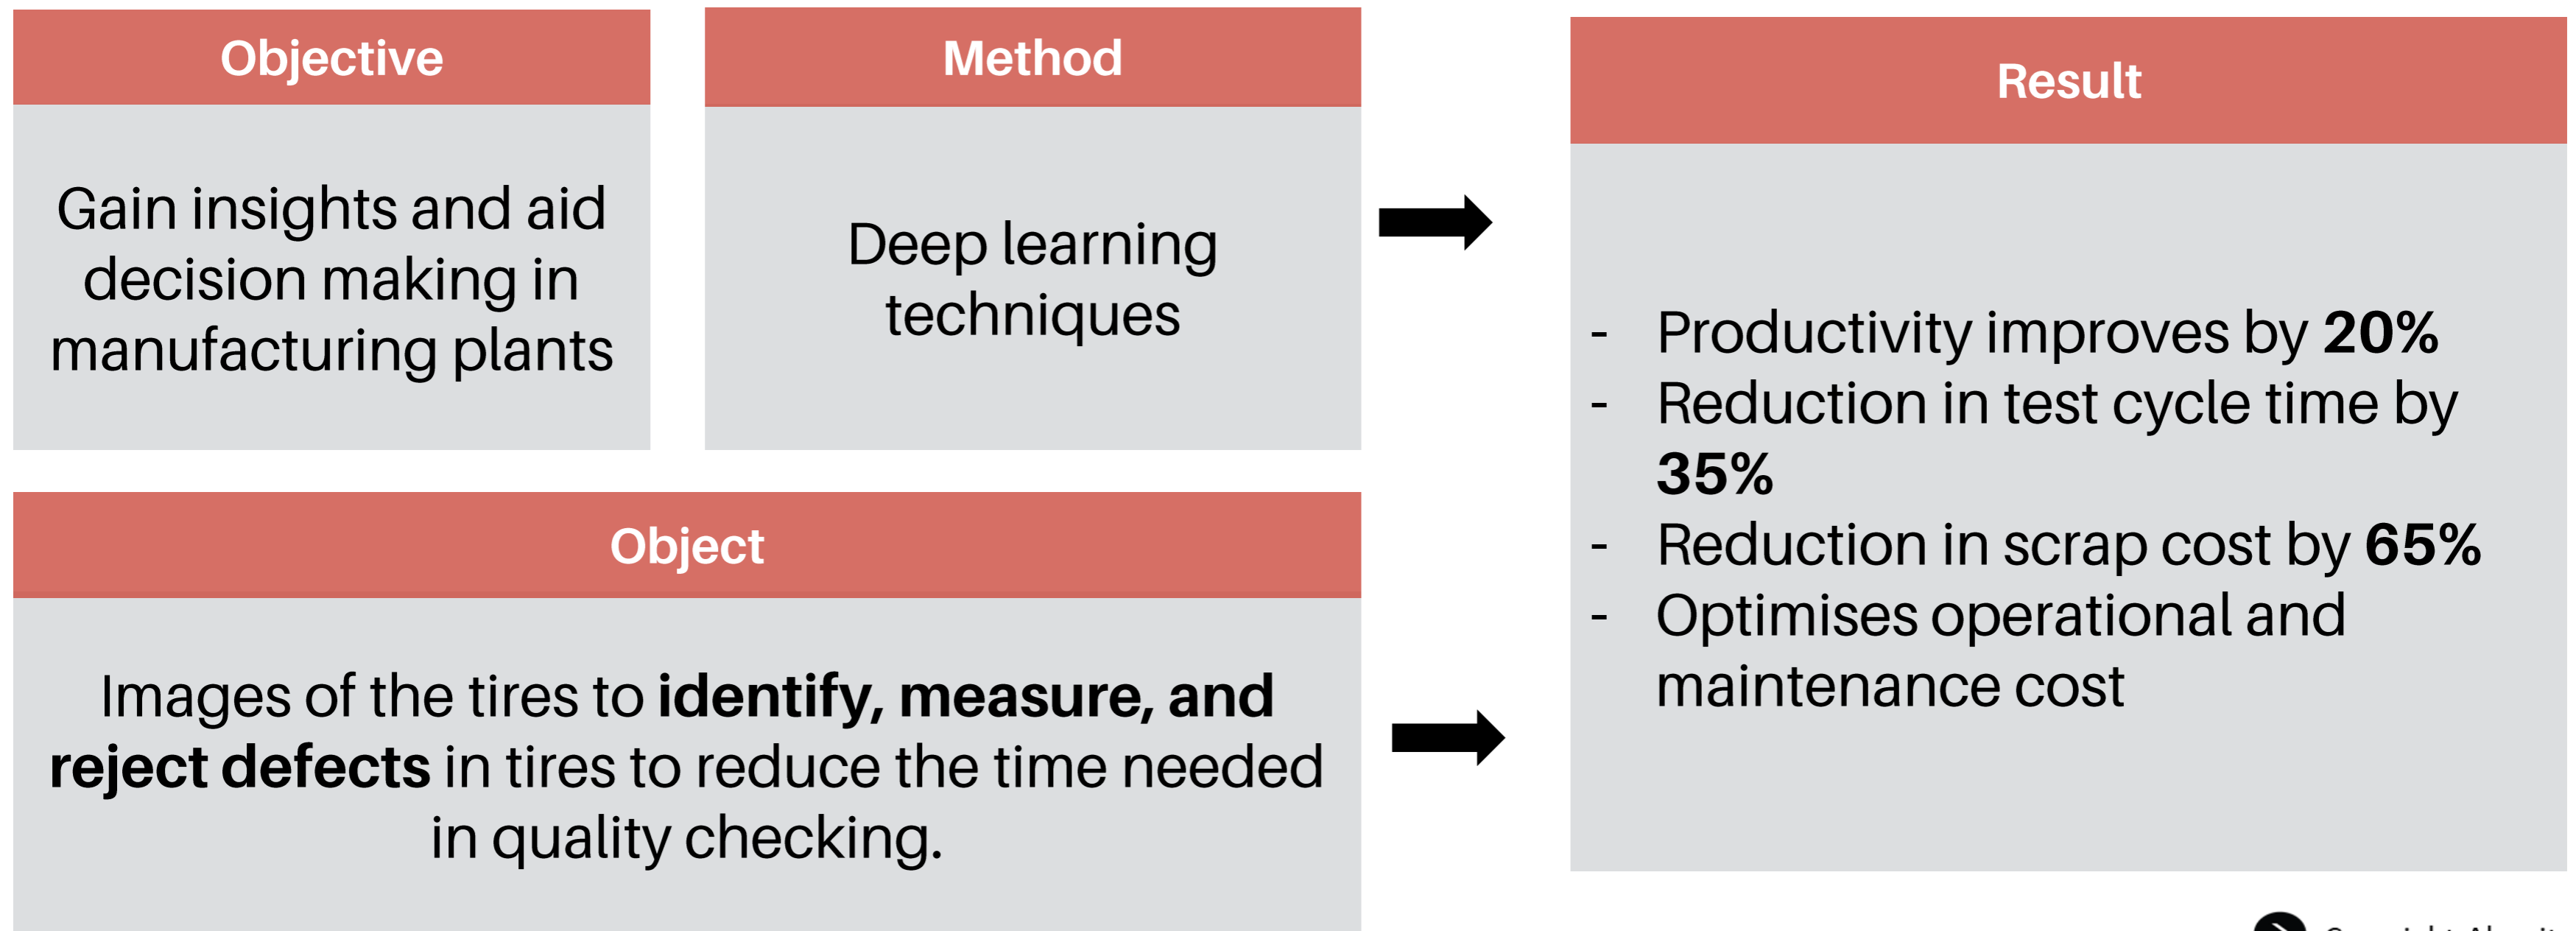

# **ACADEMY DATA SCIENCE BOOTCAMP**

Data Science applications in real life

# Plant Optimization

*"Bosch have implemented several Industrial IOT embedded with Artificial Intelligence solutions at multiple plants across the globe to help omit some steps in the manufacturing process, to make prediction and estimations for better decision making"*

# Marketing Optimization

*"Dole sets out to use smart marketing platform to enhance their marketing campaigns to its maximum capacity"*

## Objective

Create an autonomous marketing campaign and personalized that campaign

## Method

Machine learning

## Result

- Campaigned product sales grew 87% in **2 months**
- Increase engagement rate up to **12x**
- The automated campaign reached **60 million** impressions.

## Object

An autonomous campaign **automatically across social, display, and search** channel with a specific target audience.

# Product Stocking Optimization

*"As a leading soft drink company, Coca Cola has a big amount of data that has to be processed and analysed well in order to sustain innovation and leadership"*

## Objective

Understanding customer store visit behaviour to determine effective product stocking

## Method

Image recognition and real time analytics

## Result

- Reduced out-of-stock incidents by **63%**
- Achieved **97%** barcode recognition accuracy

## Object

Determine the **optimal order for store visits** based on the best time to visit the store, the available personnel, in store promotions, and specific store needs. **Evaluate out of stock items, facings, prices, and share of shelf to give insights for future steps.**

# Automated Credit Ratings

*“UOB is tapping AI to automate its credit research and assessment processes and be far more efficient in its fixed income evaluation and investment management.”*

## Objective

Automating credit research and assessment process

## Method

Predictive analysis using machine learning

## Result

- **Real time** credit insights for bond investors
- **80%** automated tasks in producing better research and generate deeper insights
- **Early warning indicators**
- **Standardized credit rating services** for unrated bonds

## Object

Analyzing ASEAN corporate bond issuers ASEAN corporate bond issuers' financial and non-financial data, enabling asset managers, financial advisory firms, and institutional investors to evaluate issuers' creditworthiness more accurately.

# Why we are superior compared to other corporate trainers

	 <b>algorithm</b> <sup>®</sup>	OTHER CORPORATE TRAINER
PROGRAM FOCUS	Outcome based, Pilot Projects, Result oriented ROI	Academic Training
PERFORMANCE MEASUREMENT	Proven data driven feedback system and adaptive pedagogy	After training review
CUSTOMIZATION ABILITY	High	Medium to Low
DEDICATED & CERTIFIED TEAM	Team of Veterans Certified by RStudio Project Manager	None
MENTORSHIP SUPPORT	Team of Mentors to help troubleshoot	None

# Why choose **Algoritma**

Our trainings are **designed to meet the specific needs** of partner companies across numerous sectors including finance, government, marketing and technology.

LINK TO BUSINESS OBJECTIVE	 Scalable Result  Immediate Result	<ul style="list-style-type: none"> <li>• We review the specific needs and skill gaps of each partner to develop a training approach tailored to their organization.</li> <li>• Courses are normally 2-4 days in length, taking place on-site at the partner's offices.</li> <li>• Our experienced teaching assistants help in making your course scalable from 15 - 30 class sizes depending on your need.</li> <li>• We utilize pre-provisioned digital curriculum and setup instructions to minimize setup time.</li> <li>• Training is hands-on, combining interactive lectures with real-world projects following canonical data science workflows common to industry.</li> <li>• Dynamic multiple choice test and code submission allows Algoritma to assess students' code in real time to provide feedback on their progress</li> </ul>
ROI DRIVEN METHODOLOGY	 Improved Profitability  Targeted Training  Optimized Duration	
EASE OF DOING BUSINESS	<div>Productivity</div>  Time Savings  Reduced Effort <div>Operations</div>  Simplification <div>Access</div>  Configurability <div>Relationship</div>  Responsive Client Service  After Training Support <div>Strategic</div>  Risk Reduction	
CONCRETE RESULTS	 Clear Path of Growth  Upgraded Competency  Discover Champions	<div>Our programs stands out with its high quality, enterprise positioning and affordable pricing.</div>
